

# Carrier

Compilation of some of the crimes that have Iranian military border have committed back to the Kurdish people in Iran in 2012

## Carrier:

The Islamic republic of Iran has for 35 years practiced a constitution that ethnically discriminates against the Kurdish minorities in the country.

The govern budget is unfairly divided, leaving very little to the Kurdish areas.

The government deliberately denies development in these areas. The woods in the border areas have been burned down to remove the livelihoods of the Kurdish people.

This is a tempt to force the Kurds to be addicted and loyal towards the Islamic regime. The work conditions are hard and leave few options for survival for the Kurdish minority. Many choose to make their own way of living by carrying goods across the border from Iraq. When the Iranian border soldiers discover them, they immediately execute them.

The border soldiers acts in this matter as soldiers, police, justice and executioner. They act without knowing what the carriers are actually bringing on their backs, and if it in fact is illegal at all. If they are bringing something illegal, the punishment is supposed to fit the crime. The goods they transport are different types. According to Iranian law, It is illegal to import goods that is seen as a threat against the govern economy or the countries own production.

It is also forbidden to import goods that are forbidden by the Islamic law. Most of the goods are in fact neither a threat against the government, the productions in the country or illegal against the Islamic law. So in most cases these carriers are in fact killed as innocent people, not guilty of any crime.

The carriers we talk about in this text are familiar with the Iranian system and rules. Nevertheless they are still taking this inhumane risk to survive, and live a respected life as a citizen in the Islamic republic of Iran.

The list is part of the information that has been confirmed by the media and human rights activists in Iran:

Name	Birthplace	Instead interruptions	Date	Injured or killed
Loghman Shikhe	Panjgine	Doleby Mariwan	2011-12-28	Injured by Iranian Border military Fire
